

POWERHOUSE[®] GENERATORS

Boost Your Power

Getting Extra Power When You Need It is Easy and Convenient With a Powerhouse[®] Parallel Kit

Get extra power when you need it without giving up the portability of a compact, lightweight generator. With the Powerhouse[®] Parallel Kit you can quickly and easily connect any two Powerhouse[®] parallel-ready generators to get the extra power. For example, connect two PH2100PRi together or one PH2100PRi with one PH2700PRi to get a rated 4,000 watts (maximum 4,200 watts); connect two PH2700PRi together to get a rated 5,000 watts (maximum 5,200 watts).

Approved for sale in the USA and Canada.
